

Quality policy of PureAqua Llc.

PureAqua Environmental Engineering Company Llc. was founded in 2005 to solve various kinds of environmental, physico-chemical and biological wastewater treatment tasks and other kinds of waste and water treatment problems. Due to our many-years-experience, we are able to manage professional consultant, technology design, maintenance and educational tasks all over the country and also abroad. Among our clients, there are municipal and/or public companies just as customers from the international and the Hungarian private sector. As a leading contractor engineering company, we are committed to economically sensitive environmental protection.

Besides giving the best of our knowledge in our work, we take the environmental and local circumstances, possibilities and economic aspects into consideration while giving a solution which totally meets our customers' demands.

As an enterprise dedicated to the quality, we consider it important that all of this is continuously reflected in the work in cooperation with our partners and clients, and that it bears and explicit meaning to all those involved, owing to our joint efforts.

The management is also committed to the participation in conferences, trainings and professional improvement and provides opportunity of life-long learning since we believe that it is one of the cornerstones of the continuous success. We think that quality work can only be done by the application of quality workers. The workers are continuously developing by the various kinds of problems solving. In order to improve the quality of our services, one of the main aims of the management is to ensure the up-to-date infrastructural and perspicuous organizational structure and also a motivating work environment.

We have remained committed to earning and keeping the loyalty of our clients. We strongly believe that a work is only finished in case our client trusts us again and again.

Since our partners' success is ours too, we can only reach the appropriate results with a strong and continuous cooperation.
